VOLUME LXXXVI | GRENADA, MISSISSIPPI, FRIDAY, OCTOBER 28, 1938 | NUMBER 23

Auto License Penalty Date Is November 1

Persons who fail to buy automobile tags for 1939 by November 1 will be liable for a penalty, according to a ruling by Attorney General Greek L. Rice, which is published for the benefit of the public.

Attorney General Rice's statement:

Chapter 148 of the Laws of 1938 changes the date for purchasing motor vehicle privilege license from the month of December to the month of October, and in order to adjust the equities between the state and those who had purchased tags for 1938, provided that any person who has obtained a privilege license tag in the operation of any motor vehicle for any period ending on December 31, 1938, shall be entitled to credit when applying for license under Chapter 148 of the Laws of 1938 equal to the amount paid for the privilege license for the number of months remaining in the year 1938 at the time of the purchase of the license, as a part payment of license purchased during the year 1938.

Section 14 of Chapter 148 of the Laws of 1938 provided that any person who fails or refuses to obtain such privilege license during the month of October of each year shall be guilty of violating the provisions of the act, and shall be required to obtain a privilege license plus a penalty of 25 percent of the amount of the tax, from which it follows, that a person who purchases a tag after October 31, 1938 must pay a penalty of 25 percent if such car is not a new car or a second-hand car in the hands of a dealer on November 1, 1938. A person who undertakes to operate on a privilege license purchased for a period ending December 18, 1938 on and after November 1, 1938 is in the same status as if he had no privilege tag.

It was within the power of the Legislature to require those who had purchased tags for 1938 to purchase new tags at any time deemed feasible to the Legislature and deny any credit for anything paid on a privilege license tag in existence. Any sheriff selling a license tag after October 31, 1938 for the twelve months' period beginning on such date without the collection of the 25 percent penalty would be personally liable therefor, and, in adition thereto, the purchase of the tag would also be loable for the penalty. The privilege to operate a motor vehicle upon the public roads is not a matter or right, but a privilege that may be granted by the Legislature or withdrawn at its pleasure.

Yours very truly,
Greek L. Rice,
Attorney General.
(Signed) By:
W. W. Pierce,
Assistant Attorney General.

Cancer Victim Is Recovering

(By United Press)

CHICAGO— Johnny English, 14-year-old cancer victim who four months ago was given only a 1,000 to one chance to live more than a month is on the road to recovery,, in a mercy hospital attache reported today.

Johnny has shown remarkable progress during he past week. Yesterday he got up and walked about the hospital for a few minutes.

He is suffering from a cancerous disease which follows along the nerves an usually is fatal in a few weeks.

Physicians said his will to live was strenghtened by his desire to see his favorite team, the Chicago Cubs, win the World series. Johnny was disappointed when they lost but his family physicians kept his interest alive by arranging for him to talk to screen sar Shirley Temple and other celebrities on the telephone.

Girl Reserve Program Sunday Night At 7:15

On Sunday, October 30th, at 7:15 p. m. at the Methodist church, the church service will be conducted by the Girl Reserve Club. The service will include hymns, a Bible playlet, and a speaker. The playlet, "The Maker of the Loaves," is based on the parable of the boy with the loaves and fishes.

The speaker is Miss MacLagen, of England, who is observing Y. W. C. A. and Girl Reserve work in the United States. She is a member of the World Committee of Y. W. C. A. and a daughter of the late Archbishop of York. Since Miss MacLagen has traveled extensively, it is expected that her talk be both educational and entertaining.

Gray Foxes Caught On First Day's Chase

TUPELO, Miss.—Two hundred and fifty-three hounds, just 19 short of the world's record cast, lined up at dawn Tuesday near Tombigbee State Park for the nineteenth annual Tri-State for hunt.

Three gray foxes were caught and several others jumped, including a big red fox, which beat dogs to his hole by inches. The first "brush" was presented to Mrs. John Parker, of New Albany, first lady rider to reach the scene of the capture.

Horace Lovell, of Union City, Tenn., was master of hounds with the following acting as judges: Richard Peytoon of Glass, Tenn.; Tom McClamnoch of Jackson, Tenn.; Dr. Link Williams of Olive Springs, Tenn.; Ray Horn, T. A. Oliver and John Clardy, all of Occala, Fla.; J. W. Mann of Barton, Fla.; Pope Wilder and E. A. McBride of Taladega, Ala.; Archie Harris of Aberdeen, Miss.; Red Pope, Guin, Ala.; Ernest Davis of New Albany.

Parker's Hound Wins

At the bench show in which more than 100 dogs entered, Brimstone Foggy, owned by John Parker of New Albany, and former champion of Ohio, Kentucky, Eastern Kentucky, and of the Tri-States bench show, was adjudged best hound in the show and also was awarded first place in the Derby dog class.

White Fury, owned by Corbett Payne and Eldridge Lilly of Tupelo, was judged first in the all-age bitch class and best of opposite sex in the best hound in the show class.

Crawford Wins Horn Blowing Contest

L. W. Crawford of Grenada won the horn blowing contest over a number of veterans.

Other bench show winners: Best puppy in show, Flying High, owned by John Parker, New Albany; best of opposite sex, Big Evelyn Cortz Dempsy, owned by Stone J. Crane of Hamilton, Ala.; Derby bitch class, Mary Snow Trobule, owned by Romie Green of Amory; all-age dog class, Moze Seltzer, owned by Mrs. Polk Chapleau of Memphis; all-age bitch class, White Fury, owned by Lilly and Payne of Tupelo; best pair, Ebony Alexander and Moze Seltzer, owned by Mrs. Chapleau; best pack, Moze Seltzer, Ebony Alexander, Smoky Moose, Burt Gruze, owned by Mrs. Chapleau.

London Offers Free Dancing

(By United Press)

London—All London soon will be dancing its way to health—free—if a plan inaugurated by the London County council is passed. The council is instituting free public dancing in the parks. For two hours in the evening all comers may dance to the music of a good dance band supplied by the council.

Find Spies With Elaborate Plans

NEW YORK—The full import of a shrewd and skillful espionage ring in the United States, exposed by the clumsy work of four minor suspects, came to light today in Federal court where three of the suspects are on trial and the fourth had pleaded guilty.

Documents, seized from spies who escaped, were placed in evidence by United States Attorney Lamar Hardy. They disclosed minute, technical information of experimental army and navy fighting planes, air plane factories and bases.

Among these documents were photographic negatives of blueprints and letters with such expert information as:

"Enclosed you will find an enlargement for the cover of automatic sights of machine guns—in reference to your query concerning construction of Bulkheads at Seversky Plant (at Farmingdale, N. Y., where military planes are made) I will send you shortly pictures of the oil pump used for running the wheel opening of the float—the water tanks at Langley (Naval Base, Langley, Va.) will take time yet—I hear that the Figs airplane which is used by the army and marine corps for one year is now ready for foreign delivery—MISSING built like Curtiss also ready for foreign delivery. (The model mentioned was an experimental eight bombing plane.) Referring to four query regarding the ringed eyelet, under separate cover I am sending you ringed eyelets which collect the spray water carrying surface between two ribs, covered with a fabric of celluloid, with sheets of acetone."

On Sept. 27, 1935, Morris Josephs, a custom guard, seized these documents from William Lonkowski, who later, it was said, turned out to be an agent of the German military intelligence. Josephs had seen Loskowski on the pier, near the docked German liner Eupora, carrying a violin case and conversing with Karl Schlueter, whom witnesses have identified as a Nazi spy.

Josephs was a witness yesterday. He said he searched Lonkowski, found the documents, realized they were of military significance, and notified Maj. Stanley Grogan of the army intelligence service. Grogan questioned Lonkowski, ordered him to return in three days for further questioning, and let him go. He fled, reportedly to Canada. Schlueter also escaped to Germany before the spy ring was exposed, more than two years later. They were among the 18 subsequently indicted.

Those on trial are Johanna Hoffmann, Erich Glaser and Otto Voss. Cuenther Rumminch, an army deserted who pleaded guilty and testified eight days before completing his story yesterday, was the fourth prisoner. The government admitted that they had only minor roles. Miss Hoffman was a hairdresser on the Eupora, an alleged courier for the spies. Glaser, a private at Mitchel Feld Army Air Base, was accused of giving Rumrich some confidential but apparently useless information of army affairs. Voss was implicated for the first time by the testimony of Sehta De Vanger yesterday. She said Lonkowski boarded at her home and Voss frequently visited him, bringing packages which he left in Lonkowski's "laboratory."

Rev. Mr. Love Dies In Church Meeting

NEW ALBANY, Miss.—The Rev. G. B. Love of Algoma died Wednesday night at 7:45 o'clock in the First Methodist Church here of a heart attack shortly after the formal opening of the North Mississippi Methodist Conference. He was 55.

His death followed the communion service. He had not yet answered roll call when the attack came.

The body was sent to Algoma this morning for burial. He represented the Algoma Church at the conference.

Ask Freight Equalities

(By United Press)

BUFORD, Ga.—Abolition of North and South Freight rate "inequalities" was held "absolutely essential" to industrial expansion of the South today by Bona Alen, Jr., head of the huge Bona Allen Shoe Company here.

"Without a shadow of a doubt we of the South must have lower freight rates, equal to those of the North, before Southern industry can expand to the extent of equality with other manufacturing centers of the nation, Allen told the press.

Allen expressed his opinion on Southern industry as Fortune magazine, in its November issue, pointed out in a survey of Southern conditions difference in the North and South freight rates on manufactured goods.

Fortune, however, said freight rate differentials alone could not be justly blamed for keeping Southern wage levels down.

BAND CONCERT

The Grenada High School Band will render Band concert Tuesday November 8, at 7:30 P. M. at The High School Auditorium.

Admission 15c and 25c.

Dr. Bob Clanton Is Health Officer

John Pressgrove, County Clerk, has been notified of the appointment of Dr. R. A. Clanton by the State Board of Health to fill the unexpired term of the late Dr. T. J. Brown as county health officer.

June 30, 1939 is fixed as the date of the expiration of the term.

Dr. Clanton is too well known to all the people of Grenada County to require an introduction from any newspaper.

Hopes President's Appeal To Effect Fair Labor Law

WASHINGTON — Wage-hour administrators hoped today that President Roosevelt's personal appeal for cooperation would bring about an effort in low wage industries to make the new fair labor standards law work.

Beginning the third day under under the new law, wage-hour officials were optimistic. They hoped that employers who have shut down their factories in protest against the law's minimum wage and maximum hour provisions would attempt to comply rather than throw thousands out of work on the eve of a national election.

Wage-hour officials were encouraged by the fact that no court action against the law has yet been taken. They expected, however, that a test would reach the supreme court in the near future.

Mr. Roosevelt directed his remarks particularly at the Pecan Shelling Industry, which closed down Monday rather than boost wages of its more than 30,000 employes from an estimated eight to 15 cents an hour up to the 25 cent minimum. He deserved that the nation was not going to stop growing, picking and selling pecans and that therefore it was the practical thing for employers in the industry to sit down with government officials and try to make the law work.

He said that it was unfortunate that the question had arisen just two weeks before the election because, judging by any important social legislation put on the statute books in the past, some persons are immediately affected, but it is by no means certain that they are permanently adversely affected.

Among the Grenadaians who went to Oxford to attend Ole Miss Centenary game are Mr. and Mrs. D. M. Taylor and Geo. Criss.

State To Begin Gasoline Tests

JACKSON, Miss.—Commissioner Howard Dyer of the motor vehicle department said yesterday that his department is experiencing some trouble with major oil companies operating in the state in the matter of equipping their stations for coloring of gasoline as required under the new inspection laws.

Under the new act, the commissioner explained, filling stations are required to color first-class or high-test gasoline with a red coloring, the second grade or "regular" gas with some coloring other than red, while the third grade is required to be uncolored.

Most of the filling station operators have compiled with the law, Mr. Dyer said, but he added that one major company the name of which was not divulged, has declined to meet the coloring requirements thus far. This company, Mr. Dyer said, has been given until November 1 to comply, or face court action to force obedience to the statute.

The commissioner also announced that the state will begin taking samples of gasoline sold in Mississippi, and submit the samples to the state chemist, Dr. W. F. Hand, at State College, for analysis as to grade and quality of the gasoline sold.

A special testing station has been installed at State College for the purpose of carrying on these tests in an effort to insure the public against the sale of low-grade gasoline in the state.

Red Cross Roll Call Begins Nov. 11th

The Red Cross Roll Call will begin November 11th. Homer Williams is chairman of Roll Call Committee, Frank Jones, Publicity Chairman, Mrs. W. D. Salmon, County Chairman.

Sayre To Speak Memphis, Nov. 2

Episcopalians of the Mid-South will be hosts at a huge banquet at Memphis Auditorium, 7 p. m., Wednesday, November 2, in honor of the 102 Bishops who will be in Memphis for an annual meeting of the House of Bishops.

Speaker of the evening will be Dr. Francis B. Sayre, assistant secretary of state and chief negotiator of the Hull reciprocal trade treaties. Dr. Sayre is recognized throughout the world for his work in international affairs and has been decorated for his services by seven foreign countries. He is a most forceful speaker and is one of the Episcopal Church's most consecrated laymen. Dr. Sayre's timely subject will be "The Duty of Church Leadership in the face of Modern World Conditions."

The most Rev. Henry St. George Tucker, of Virginia, presiding Bishop of the Episcopal Church, will be the only other speaker of the evening. Congressman Walter Chandler, of Memphis, will introduce Bishop Tucker. E. W. Palmer of Kingsport, Tenn., and president of the Layman's League of Tennessee will be toastmaster.

Bishop James M. Maxon of Tennessee, host bishop, has announced a unique seating plan for the 1500 guests expected. Guests will be seated at small tables, with visiting bishops and clergymen at each table. Church leaders from all parts of the world will be present.

The negro choir from the Episcopalian Okolona (Miss.) Industrial School will sing at the banquet. Adolph Steuterman, choir director of Calvary Church, Memphis, will be in charge of music. Tickets can be obtained from any Episcopal minister or mail orders will be filled by the Memphis Municipal Auditorium until Saturday, October 29.

Members of all Faiths will be welcomed.

U. S. In Stern Note To The Japanese

WASHINGTON — The United States in a forcefully and bluntley worded note, has informed the Japanese government that she finds it increasingly difficult to "reconcile" herself to the trade situation which Japan has created in Japan, the state department announced today.

The note charged that Japan had been responsible for "aritrary and illegal" acts to the betterment of United States Nationals and United States trade. It contrasted Japanese promises with Japanese performances and asked prompt measures to maintain the "open door" policy in China and to protect American interests.

The note was delivered to Prince Fumimado Konoye, premier and acting foreign minister, by American Ambassador Joseph C. Grew in Tokyo on Oct. 6, but it was not made public until today, 21 days afterward. The state department did not say whether Japan had replied and it was assumed that no formal reply had been made.

The note reiterated the frequent previous complaints against Japanese violation of the principle of the "open door" in China which gives all foreign nations equal trade opportunities and to which both Japan and the United States are pledegd. The complaint was against a situation in which American Nationals are discriminated against in violation of this principle, the note said.

In its concluding paragraph with the bite of a whip snapper, the note said:

"The government of the United States believes that in the interest of relations between the United States and Japan an early reply would be helpful."

Grenada Hunt and Field Trials Club To Meet Jan. 4th

The Grenada Hunt and Field Trial Club held its annual meeting this week and January 9, 1939 was decided on as the opening date of the annual bird dog field trials.

The following officers were elected: Homer J. Williams, President; L. D. Bonne, Secretary.

Practically all plans were worked out for the coming trials which are expected to draw many entrants from the tri-states. The Grenada club has grown to be a nationally known organization and has received a great deal of publicity in the American Field and other similar magazines.

Those wishing information concerning the event are requested to see the newly elected officers.

Three Of Accused Are Acquitted

LITTLE ROCK —Three persons accused of harboring Alvin Karpis, notorious kidnaper and outlaw, won directed verdicts of acquittal late yesterday in Federal District Court.

Judge Thomas C. Trimble granted motions of acquittal for the trio, ruling that the government had failed to prove they had any knowledge of a conspiracy to shield Karpis from capture. Those acquitted were Mrs. Al C. Dyer, operator of a boat landing near Hot Springs where Karpis rented a cottage in 1935; Morris Loftis, caretaker at the landing; and John Stover, aviator and manager of the Hot Springs Airport.

A. L. Ford Will Be Here Friday, Nov. 4

Mr. Frank Jones, Sr., Editor

I plan to be in Grenada on Friday, Nov. 4th, for the purpose of seeing as many friends as possible and particularly anyone who had any business which they wish to discuss with me.

I shall thank you to give such publicity through the columns of your paper as you see possible to do.

Your friend,
A. L. FORD

Tipton, Cal. (UP)—A boy with a gun put the entire telephone service of the city out of business for several hours when shooting at a bird, his bullet struck and cut an 11,000-volt high tension wire, which fell onto the telephone wires and burned out almost every fuse in the system. It was impossible to ascertain whether or not he killed the bird.

First To Buy Page Spread

Isenberg's Department Store is the first to use the combined coverage of The Sentinel and Daily Star with a page advertisement, which is carried in this issue.

Elsewhere the thrifty shoppers will find their page of seasonable bargains.

Your Shopping Guide

Buyers in the Grenada trade territory will find in this issue advertised bargains to suit every need.

There are advertisements of varying size offering wearing apparel, for men women and children, along with the daily needs in grocery and market products.

The firemen answered a call this morning to a vacant lot on Govan Street.

A Proclamation

WHEREAS, The American Legion has demonstrated its patriotism and unselfish service to this community, the State and Nation, and

WHEREAS, The American Legion of Mississippi, by and through its 1937 and 1938 membership made possible the Great Pilgrimage to New York and return, and to Los Angeles and return, wherein Mississippi's recreation, historical, agricultural and industrial alvantages were displayed and viewed by millions of American citizens; and

WHEREAS, a definite drive to obtain an early membership in order to give more time to Community Service has been launched by the Mississippi Legion.

NOW, THEREFORE, I E. C. Neelly, Mayor of Grenada, Miss., do hereby proclaim the months of September, October, and November, 1938, American Legion Membership Period and call upon all citizens of this commonwealth either, through their organizations, or individually, or both, to join hands with our own Post, the Grenada County Post No. 35, to the end that every World War Veteran become a member of this great Service Organization.

Given under my hand and seal this the 26th day of October, 1938.

E. C. NEELLY, Mayor.

Elucational Institutions And The Sales Tax

To such of the educational institutions o fthe state as carry on any form of mercantile operations involving the sale of tangible personal property, whether to tudents or the public:

Under date of October 19th, the State Tax Commissoin released a statement as to the sales tax liability of stores operated at the State's educational institutions, whether through concessions or by the institutions themselves. This statement was based on an opinion of the Attorney General, under date of September 17, 1938, from which we quoted as follows:

"I am very clearly of the opinion that the tax should be collected on the sales made in said stores the same as if they were owned and operated by a private individual."

The reference to sales tax liability is clearly confined to the operation of stores, there being no mention whatever of cafeterias However, it has been brought to our attention that our statement has in some places been construed to mean that cafeterias operated by schools would also be liable for the sales tax. As a matter of fact, the statement was directly to the contrary, as follows:

"The question of sales tax liability in connection with the operation of these safeterias was definitely raised very soon after the enactment of the law. After careful consideration, it was held that there was no sales tax liability involved."

This meant, at the time the ruling was made, some six years ago, and it still means, that sales tax is not expected to be paid by school cafeterias serving the student body, faculty or others connected with the operation of such schools.

This further statement is released simply to clarify the situation as to school cafeterias.

Sincerely yours,
A. H. Stone,
John F. Frierson,
Bruce Van Zandt.
The State Tax Commission.

Billups Says Plans Incomplete

GREENWOOD—R. A. Billups, whose one-year prison sentence for illegal shipment of gasoline in interstate commerce was commited by President Roosevelt, refused to comment today on whether he and his wife would leave for Europe where Mrs. Billups was expected to undergo a delicate eye operation.

The commutation was conditional upon Billups' agreeing to leave for Europe within three weeks. Billups said his plans were "incomplete but friends said they would leave in a few days for an unnamed European hospital where an operation will be performed.

Mrs. Billups suffers from a serious eye ailment which resulted from an overdose of quinine several years ago.

Billups was released from a federal prison at New Orleans earlier this week and arrived at his home here yesterday.

Attention! ! ! Ex-Soldiers

This message is for ex-regulars only. The construction of a reserve unit for the national defense to provide immediate and adequate reinforcements of trained men for the regular army in the event of an emergency is declared by the Presidnet of the United States is entirely up to you.

Remain with the Colors!! Be a modern minute man!!

The reserve is composed entirely of men under 36 years of age, who have served at least one year continuously in the regular army and have been honorably discharged within three years.

Don't forget your army training!!

Remember those general orders!!

Members of the regular army reserve are not subject to any active duty except in the event of an emergency. The period of enlistment is four years. The fact that an applicant for regular army reserve is married does not bar him from enlistment if he is otherwise qualified.

For additional information write or call in person at the United States Army Recruiting Station, 526 Post Office Building, Jackson, Miss.

Chrysler Royal Deluxe for sale, in good condition, one year old. Apply this office.

Seventy-Three Charged With Grafting On WPA

ALBUQUERQUE, N. M.—Seventy-three persons, including the sister and the son-in-law of Sen. Dennis Chavez, D., N. M., surrender today to provide bond guaranteeing their appearance in court to answer indictments charging them with criminal misuse of the Works Progress Administration's machinery, materials, and workers.

The grand jury indicted 58 persons on charges of conspiracy to violate the WPA appropriations code, which carries a maximum penalty of $10,000 fine and two years imprisonment. It indicted 15 others on charges of diversion of WPA labor, falsification of payrolls or diversion of materials. Conviction of these charges carries a maximum $2,000 fine and one year imprisonment.

Among the indicted were Chavez' son-in-law, Asst. U. S. Attorney Stanley Miller, Mrs. Anita Tafoya, sister of the Senator; and Fred Kealy who was dismissed as New Mexico WPA Administrator by Federal Administrator Harry Hopkins on Sept. 24.

The WPA appropriations code rules that the system's money may not be used for political purposes. But the jury reported that violations affected nearly every section of New Mexico and favored no political organization specifically. It said that in one community "one particular of just an opposite type was sought."

Time of the violations were unspecified and copies of specific charges against the defendants were not immediately available.

General charges for indictments said that threats were used to compel WPA workers to join with indicted officials in taking joint and unified political action. WPA employes reportedly were made to help in political campaigning while they were on the payroll.

WPA workers were said by the jury to have been used preceding a special constitutional amendment election last year. The amendment was to abolish present law that county and state officials can serve two consecutive terms only. The amendment was defeated.

The jury charged that WPA employes were made to join political clubs disguised as social organizations and made to pay dues and buy tickets to so-called social functions. Those who failed in political service, the jury said, lost their jobs.

WPA To Begin Work On Nine New Projects

JACKSON, Miss.—The Mississippi WPA is beginning work on nine projects this week which will involve a total Federal expenditure of $159,151 and additional sponsors' contributions of $66,523, it was announced by Mr. R. B. Wall, Deputy Administrator in charge.

One of the projects is for building structures to house waterstage recorders on streams in 28 counties, in connection with Geologic Survey work sponsored by the U. S. Department of Interior. In all, about $36,800 will be spent on the project. Work on this project was started in Jones County this week.

Another project is for paving streets at Drew, in Sunflower county, at a total cost of $17,036, a substantial portion being contributed by the town of Drew, which sponsors the project. This work is expected to furnish employment for 38 men.

A new $52,900 additional will be built on the school at Maben, in Oktibbeha county, where work will start in a few days. Approximately 52 men will be used on the job, which is sponsored by the Board of Trustees of the Maben Consolidated School District. The Board has arranged a substantial contribution for materials.

The Board of Commissioners of the Silver Creek Drainage District in Yazoo county are sponsors for another job being put into operation this week, which will use 31 men, excavating and cleaning drainage ditches. The project is approved for the expenditure of $8,950 in Federal funds.

Another project released for operation this week will continue work at Camp Shelby, near Hattiesburg, under the sponsorship of the Mississippi National Guard, where the new work will include the building of a store house, additional mess hall and kitchen facilities, and some road building and fencing. Provision is also made for dismantling temporary buildings used in the Third Army Maneuvers near Brooklyn, where the materials will be salvaged and moved to Camp Shelby. The project will provide employment for 78 men.

At Poplarville, an athletic field will be built, and improvements made to the present grammar school building. About $10,000 will be spent on the work, under the sponsorship of the Poplarville School Trustees. The expenditure of $8,124 in Federal funds has been authorized.

The Board of Trustees of the Woolmarket School District in Harrison county are sponsoring a project which is getting under way this week, for the construction of a garage building and an addition to the teachers' home. The sponsors have arranged to contribute a reasonable share of the $4,874 which the work is expected to cost.

The WPA also began work this week on a 167 foot concrete bridge, over Murder Creek, on the Wiggins road, in Pearl River county. The Board of Supervisors, which sponsors the project, is contributing a fair portion of the non-labor costs of the work. An average of 26 men will be employed on the job for four or five months. The total cost will be around $10,000.

At the Veterans' Facility, at Biloxi, a project will be placed in operation this week for building a soft ball diamond, complete with stand and lights.

Service Medal Years Late

SAN FRANCISCO—Just 53 years from the time he earned it, George Sandersor., 70 received a medal won for services in defending Commodore Vanderbilt's Panama railway in 1885. He was one of an expedition of 1,200 men sent to Panama for that purpose. "All I did to earn that medal," he said, "was to eat bananas and fan myself. It was very hot."

Historic Wedding Revealed

SALINAS, Cal.—The WPA Historical Records Survey has established that the first wedding of Americans in California was in 1845 in what was known as the "First Maritime District of Alta California," the principals being Mary Peterson, 16, of Jackson County, Mo., and James Williams, 31, of Cape Girardeau County, Mo.

Old Gypsy Trick Works

CINCINNATI, O.—Della Wilson, negro, was not so fortunate when she had her fortune told by a Gypsy here. At the advice of the mind-reader, she wrapped $89 in a cloth, hid the package and did not touch it for an hour. Later Della discovered her money stolen and a wad of paper in its place.

Hungary May Take Armed Action Against Czechs

BUDAPEST Hunary: Hungary may take armed action against Czechoslovakia within 48 hours unless the Prague government makes an offer enabling resumption of negotiations over its Hungarian - populated territories, informed politicians said today.

More than 500,000 Hungarian troops were massed along the Hungarian-Czechoslovakia prontier as a result of the latest call to the colors. Radical elements in the army were said to be impatient and would not be held in check long.

These elements demanded that Czechoslovakia offer immediately to resume negotiations, hinging chiefly upon the cession to Hungary of the border towns, Komarom, Kascham, Munkacs and Sergszasz.

The government and Hungarians generally rejected Czechoslovakian's previous offers. It was asserted that the Czech offers would give Hungary less than half her "just rights."

Still Coughing?

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

MORE COWS ARE NEEDED

It would be gratifying to see more dairy cows in Grenada county, and the surrounding sections. Regardless of what may be said, by those who persistently claim that there is "too much work connected with milking cows," it is indisputable that in all dairy sections, the soil has become more fertile, and the farmers are more prosperous than in others where there is a scarcity of cows.

Another imperative reason for getting more cows is the trend in governmental control of production.

When the present farm bill was passed, it was only by the "skin of the teeth" that Southern Congressmen prevented writing into the measure a section which would have prevented Southern farmers from producing the milk that Southerners consume.

It is only reasonable to suppose that ultimately one of two things will happen; the government will abandon all production control, or it will on the other hand control all production.

When there is a control of dairy productoin, each farm will, according to past methods get an allotment based on previous production.

More cows on every Grenada county farm is vitally necessary, if cotton production is or is not restricted, for it is another great source of revenue.

Scobey News

Miss Mabel Frazier, stenographer for Buchanan Seed Co., Memphis, spent week before last with her parents, Mr. and Mrs. Bob Frazier. She carried her parents to Memphis on Saturday to see the aeroplane stunts. Miss Frazier is planning to go to Miami, Fla. where she can get a position wtih the same people she worked for last winter.

Mr. and Mrs. Powell Bernhard and two daughters were Grenada visitors Saturday.

Mr. and Mrs. Edwin Holcomb of Holcomb and Mrs. John Williams of Asheville, N. C. visited in the home of Mr. Fred Lawrence Sunday before last.

After spending the summer with Mr. and Mrs. J. M. Pierce, Mrs. Ella Reemes left Saturday for Little Rock, Ark. where she will spend several months with her daughter.

Mrs. Fred Lawrence visited in the homes of Mrs. Clara Minyard and Mrs. Jack Lawrence in Holcomb Monday afternoon.

Mr. Lloyd DuBard of Illinois is visiting his parents Mr. and Mrs. Ray DuBard.

Mrs. Walter King called on her daughter Saturday, Mrs. James Lawrence.

Mr. Julius Lawrence and Mr. Fred Lawrence made a business trip to Brookhaven Saturday before last.

Mr. Walter King visited Mr. F. T. Lawrence Sunday afternoon.

Cascilla News

Little Donald Turner, of Grenada, is spending this week with his aunt and uncle, Mr. and Mrs. B. A. Gentry.

George Lester spent Monday night with J. E. Mullin, of Cascilla.

Mr. and Mrs. Jim Baker were Grenada visitors Sunday.

Visitors of Mrs. Myrtle Gentry, Sunday were Mr. and Mrs. Hayden Bloodworth and Talford Lance.

Mrs. C. H. Powell, of Charleston, spent Friday and Saturday with Mrs. Ellie Lester.

Mrs. Delma Lance spent Friday with her mother, Mrs. G. E. Lance.

Methodist Missionary.

(By Mrs. L. J. Paige)

The Methodist Missionary had an enjoyable party in the Men's Bible Class rooms Tuesday night at 7 o'clock. The purpose of the party was the celebration of the 60th anniversary of our missions in China. The Business Women's Circle were the guests of the Missionary Society.

The room and table were decorated with beautifully arranged flowers. A large birthday cake adorned with pink vases and sixty candles formed the centerpiece. While the ladies, about sixty in number, gathered around the table the lights were put out. The candles lighted by Mrs. Paige and Mrs. Pierce cast a mellow glow on the beautiful table. Mrs. Campbell who has been a member of this auxiliary for 50 years said a very appropriate prayer, and was given the honor of blowing out the candles. A pleasant social hour was enjoyed while the food was served.

The soft music played by Mrs. Dick Smith indicated it was time for the program. Mrs. George Granberry and Miss Ouida Ellzey sang a duet "Seek Ye The Lord." Mrs. L. J. Paige announced that the subject of the program was "60 years in China." She stated that 123 missionaries have gone during the 60 years and that there are now 41 active missionaries in the field despite horrors of war. Mrs. Paige introduced the speakers: Mrs. Robt. Sharp; Mrs. Fred White and Mrs. Frank Matthews. They told in a very interesting way, about the three phases of our work in China; the ministry of education, medicine and evangelism.

The entire group listened with much interest as Mrs. Jack Sanderson told about Miss Julia Wasson, her aunt, who is now teaching math in a school in Shanghai, China.

Mrs. C. A. Parks closed the meeting with prayer.

IF YOU ARE ALWAYS HUNGRY—

if you crave strange foods, if you continually lose weight, if you have a sense of fullness in the abdomen, a tired feeling, a pressure in the arms or legs, or if you experience dizziness after eating—then you may have a Tapeworm.

The only sure proof is the passing of the white, flat, ribbon-like links in the stools. Double doses of Jayne's Vermifuge (full strength) often cause them pieces to appear.

To remove the worm get Jayne's Tapeworm Treatment at your drug store. For 92 Jayne's Tapeworm Treatment has aided in eliminating tapeworms from many sufferers for over 100 years.

Japanese Holding U. S. Silver Ship

SHANGHAI — Japanese authorities detained the American liner President Coolidge today as it prepared to sail for the United States with a shipment of silver.

An American Marine guard was placed on the ship pending instructions from the State Department at Washington, to which consular officials here submitted the question.

The silver, estimated to be worth $4,500,000, consisted largely of jewelry and tableware which Chinese patriots had contributed to the government for war purposes, and which was being shipped to the United States.

Shanghai customs officials yesdatery issued clearance papers to the President Coolidge, a 21,936-ton Dollar Liner, including the silver which was on its way to the Chase National Bank of New York.

Last night, at the instigation of pro-Japanese authorities of the Chinese Municipal Regime, supported by Japanese military authorities, the ship's clearance authorization was suspended.

The result was that the ship was unable to sail on schedule this morning as Japanese customs officials refused to release it.

Negotiations continued throughout today, and late this afternoon the liner began unloading the silver, hoping to avoid further costly delay.

Up the Yangtze, where the Japanese were striking at Hankow, and subjecting it and its whole area to terrible air raids, six heavy Japanese planes bombed the British River Gunboat Sandpiper, 185 tons. The superstructure was damaged severely, two cabins were wrecked and bomb splinters tore numerous holes in the ship. There were no casualties among the ship's complacement of 35 officers and men.

U. S. Navy News

Benjamin Phillips, of Route 5, Grenada, Miss., was accepted for enlistment in the U. S. Navy at the local Recruitin gStation this week.

Walter Sidney Hemby, of this city, has completed his course of training and is now attending the Metal-Smith's School, Norfolk, Va.

Charlie Volney Woods, colored, of this city, is now serving aboard the U. S. S. Henderson, Navy Transport.

Thursday, October 27th, will be observed as "Navy Day" throughout the nation and in our Island Possessions. Naval vessels and shore stations will be open to the public for inspection and it is urged that all citizens who can do so, visit some part of the Navy on this day.

Pat Says A Reduction In Relief To Come

JACKSON, Miss.—Sen. Pat Harrison of Mississippi predicted today that a mounting government debt would forces a reduction in relief appropriations at the next session of congress.

Harrison, chairman of the potent finance committee, said he believed congress would give favorable action on the question of increased aid to states unable to raise sufficient funds for old age assistance.

FIRE LINE PLOWING URGED

Jackson, Miss.—"Homestead exemption and proper cutting practices by farm owners who now have greater assurance of stable land ownership" says J. B. Bishop, Business Manager of the Mississippi Forestry commission. He compares sustained forestry and health practices, saying, "In the Healthiest communities, the individual takes added precautions against illness. So should the farmer provide added individual protection against fires even, though his farm is located in a country with country wide protection, by plowing fire lines around the land lines and again 100 feet inside, and burning the intervening strip. The few necessary furrows can be constructed easily and cheaply during the winter months by plowing or dragging with a spring tooth harrow.

"Every person should constitute himself a committee of one to dismakes no difference who owns the loses when the woods burn. It courage wood fires. Everybody woods. Conversely, every one is benefitted by protecting the woods from fires.

"Fire is a destroyer, an outlaw, if you please. If a house burns, it's news. If a thousand acres of woodlands burn, it is passed off with shrug notwithstanding a hundred potential houses have gone up in smoke. We owe it to our children to stop destroying the blessing that nature is stiving to bestow on us. Timber in the woods lot is money in the bank.

"It is height of folly to permit longer the thougtless to destroy our timber and wild life, our water and land.

Dental Defects Endanger Health

Dental defects endanger the health of two-thirds of the school children in Mississippi, states Dr. J. A. Milne, Director of County Health Work, State Board of Health, following a twelve months' survey of mouth conditions among school children.

These dental defects and accompanying physical ills frequently injure the child's health permanently in addition to retarding his school progress, Doctor Milne says.

"Since a large percentage of dental disease together with its attendant sickness can be prevented or greatly reduced provided protective measures are begun early in life, the State Board of Health carries on mouth health activities in as many counties as possible based around the mother, the pre-school child, and school child," Doctor Milne states.

"Findings for the past twelve months indicate that 102,000 school children's mouths were inspected in 62 counties; that negro children have better mouths than white; that fewer cavities per mouth are found where dental hygienists are employed; that the number of children getting dental corrections is growing larger; that the number of school children securing more than one etreificate a year is steadily rising.

"Yet there is a dark side to the picture where two-thirds of the school children in the state have dental defects, where many have abscessed teeth, and where a large group have lost permanent teeth," Doctor Miln declares.

Calling on parents, teachers, and all lay people in contact with children to assist in a program of sound dental health education, Doctor Milne names five essentials to dental health: a well-balanced diet, regular dental treatment, proper tooth brushing, good mouth habits, and wisdom in using dentifrices.

Urging the value of a well-balanced diet, and especially of seeing that babies and growing children have the proper food, Doctor Milne says that decay of the teeth can be prevented or decreased, if efforts toward this end are started soon enough.

YARD BEAUTIFUL

by R. O. Monosmith, Extension Horticulturist

Well, folks, the weather man reports that Jack Frost has left his summer home and it behooves us gardeners to be ready for an unexpected visit.

Of course, Jack Frost's visits will vary considerably for different sections of the state. The average date of killing frost in the fall around Jackson is November 1 to 6.

Nothing looks worse to me than frost-bitten plant and if anything I can do will help keep tender vegetables and flowers comin for another two or three weeks longer I am certainly glad to do it.

I find the best way is to sew together a number of old burlap bags which have been ripped open Then I place some ordinary painted sticks which I use to support the plants. Of course I have the sticks a little bit higher than the plants I am going to cover, and I throw the burlap bags over these sticks. Then when the bags are covered with the dew they won't break the plants.

I am using the same idea to protect my few tomato plants because erthe are plenty of green tomatoes on the vines. Some people use paper, but that is hard to keep in place. Others use cardboard boxes which they get from the grocery store.

And don't forget that yon had better be getting busy if you have house plants which you want to move indoors. Geraniums, coleus, etc., had beetter be potted migty soon, and then gradually adjusted to growing conditions indoors.

It's a good idea to be making slips or cuttings of geraniums, coleus, lantana and so on. I get a small box, fill it with six inches of clean shap sand and place it on the closed back porch. I make the cuttings 3 or 4 inches long, removeall but a few leaves at the tip and put them in the sand 2 inches deep and 1 inch apart. I keep the sand moist and seldom have any trouble getting enough plants for the house.

If you have any hardy crysanthemums, they'll stand quite a bit of frost but the new beds are rather tender, so it's a good idea to cover them at night.

LOGS WELL-PRESERVED BURIED 50,000 YEARS

WASHINGTON COURTHOUSE, O.—Giant logs, believed to have been buried beneath the surface of Fayette county by the glacier 50,000 years ago, have been found here by well drillers.

The fact that logs were struck in widely different places seems to indicate that there may be hundreds of them buried as deep as 150 feet.

Many of the logs are well preserved. Dean Garringer, well-driller, reported that he had to resharpen his drill before he could pierce one 20-inch log which lay at a depth of 55 feet.

Many See The New Chevrolet

Hundreds have visited the showrooms of the Moss Chevrolet Company to see the "39 Model Chevrolet.

Mr. Moss was gratified at the generous response to his advertising in which he invited the public to see the new models today.

Chevrolet has added more room to the bodies, in addition to graceful refinements in the body lines.

An automatic gear shift can be secured, which is controlled from the steering rod, and removes the more cumbersome and space taking shift lever from the floor board.

Substantial reductions have been made in prices.

Bankers To Back Mississippi In World Poultry Congress

STATE COLLEGE, Miss.—The agricultural committee of the state bankers' association headed by R. L. Goodwin, Forest, will sponsor Mississippi's participation in the world's poultry congress which will be held at Cleveland, Ohio in 1939 F. Z. Beanblossom, extension poultry specialist, announced here following a meeting of the state poultry congress committee with the state bankers' agricultural committee.

Beanblossom said the state bankers' association of which W. B. Montgomery, Edwards, is president, has listed promotion of the poultry congress as their principal agricultural undertaking in 1939.

The agricultural committee throgh its eight district chairmen has pledged to pay the expenses of one junior from each of the eight districts to the congress and to secure a total of 1,000 memberships which carry all of the privileges of the congress.

The junior poultrymen will compete at the congress in judging contests, educational demonstrations, exhibits of live birds, entertainment features and participate in the youth camp where they will have an opportunity to meet representatives from 40 nations, Beanblossom said.

Miss Elaine Massey, state girls' club agent and chairman of the membership committee, announces that the membership campaign will get under way about November 1. The eight agricultural committeemen of the bankers' association who will head the membership drive include W. P. McMullan, Lake; J. F. Hale, Michigan City; L. W. Yeates, West Point; P. C. Williams, Yazoo City; A. J. Stevens, West; R D. Gates, Jr., Port Gibson; C E. Williams, Purvis; and J. K. Meadow, Oxford.

Members of the state poultry committee who met with the bankers include J. C. Holton, chairman; F. Z. Beanblossom, secretary; R. H. Lampkin, treasurer; E. H. White, director of extension, and Miss Elaine Massey.

Enthusiastic over the outlook for a large participation from Mississippi, Mr. Beanblossom believes that the membership will far exceed the 1,000 goal set by the national committee.

The county key bankers will head the membership campaign in each county assisted by the county agent, county home demonstration agent, the vocational agricultural teachers, Farm Bureau officials and other leaders. Persons wishing to obtain membership in the congress should contact their county key banker or their local banker who will cooperate in the program.

WPA Workers Ask Increase

NASHVILLE, Tenn.—A petition requesting 25 percent wage increase was circulated today among WPA workers who planned to forward it to President Roosevelt.

The wage demands were presented to State Administrator Harry S. Berry. He explained to leaders of the group that only the President could authorize increased quota allotments.

Approximately 500 WPA employes had signed the petition.

MATTRESS MAKING

Lottie Wood, Home Dem. Agent

Cutting and Making Tick

For a standard double bed (size 54x76) 10 yards of 32 inch material is required. Measure material and be sure that you have exactly 10 yards. Fold material without cutting sew double length of material. This seam is 180 inches long. Cut open folded end. Double material back and sew both sides together (90 inch seams) Beginning at corners at open end sew toward center from each corner leaving about 18 inches in the center for stuffing with cotton. The corners are cut by a special pattern. This pattern gives the effect of a box type mattress with rounded corners when complete, and is much easier, simpler and quicker to make. The pattern should be duplicated on cardboard before using. Place the pattern on each corner with the long side donw the length of the tick, and draw with a pencil. Cut through folded material and rip seam or cut fold.

Filling The Tick

Using new cotton—Cotton direct from the gin before being baled is ideal for making mattresses. It is better to sun cotton to make it more fluffy and dry out any moisture that might be in it. Care should be taken not to pack cotton in small sacks when bringing from the gin. It is better to have cotton as loose and fluffy as possible. Remnants gathered at the end of the picking season which are weather damaged and have little market value as desirable as any cotton and more economical. Forty-five to fifty pounds of cotton is required for a good mattress, depending on personal preferences as to weight of finished mattress. Cotton taken from the bale or samples should be fluffed up by tearing apart with the hand, or running through a machine such as hair picker or reginner.

Renovating old mattresses—Old mattresses that contain standard staple cotton are worth reworking. The cotton from old linter's otton are not worth renovating. The cotton from old mattress should be torn apart, fluffed up and cleaned as much as possible. Sunning and besting will help to get the cotton in good condition.

Placing The Cotton In Tick

It is not necessary to place the cotton in layers in filling the tick It is merely stuffed by the handful in the 18 inch opening left for that purpose. The 45 to 50 pounds should fill the tick about two-thirds full without being packed. The open end is folded together and stitched on the machine.

Beating

A low solid top table slightly larger than the mattress is most desirable for beating the mattress. An open porch floor or vacant room floor may be used satisfactorily. The cotton can be partially distributed with the hands before beating with round pole. With the pole start beating from the center, and best toward sides, ends, and corners; turning the mattress at frequent intervals and beating first on one side, then the other. There is no danger in bursting the tick from beating or overbeating This helps to distribute the cotton evenly and makes it soft and smoother. Be sure that sides, ends and corners are well filled, also that the mattress is beaten out square with side seams in center to make box, and corners not turned up or down. In finishing this process, smooth with pole by sliding it up and down and across mattress.

Tufting Table

The mattress is then laced for tufting using the 18 inch needle. Stick needle directly through the mattress and back up leaving about one-half inch loop for tufts. Lace in rows down length of mattress using one continuous thread for each row, tying at each end with special slip knot, leaving the twine just tight enough to hold tufts under the loops on bottom side. This method holds the cotton in place while putting on roll. For measuring for tufting, begin at corners and measure out 9 inches from points. Follow down stripe tacking in six places equal distance apart. Likewise measure across and put in 4 rows. Then put in three rows of five places in center of squares formed by first four rows.

Making The Rolled Edge

Thread the Rolled Edge Needle with mattress twine using about 8 to 10 feet of twine at the time. Begin at one corner, insert the needle one-half inch below the corner and bring out diagonally throngs the top, including about 3 inches of ticking in the roll, leaving about one-half inch stitch. Insert needle again diagonally downward coming out about 2 inches from the beginning, making the stitches a little shorter on the top, continue down the edge, following the stripe. Dig in a little with the needle with each stitch to pull cotton into the roll, drawing the thread up tight from below every other stitch. Continue roll all around the mattress. Lines may be drawn across the end with a straight edge and pencil where there is not stripe to follow. In rounding corners, take shorter stitches on the top then on the bottom of the roll. For right-handed people it is easier to go around the mattress to the left using the right hand to make the stitch upward and the left to make the downward saiach. This method is mush faster than using one hand only and skill con be goine. tickly in this way. Turn mattress over and repeat on the opposite side making the stitches in the roll to match.

Tufting

Slip a tuft under each loop before turning the mattress over for tying off. After the mattress is turned over tie off in rows. Use special slip knot, insert tuft under loop and draw down tight by holding the long end of the thread and pushing down on the knot. Tie extra simple knot on the top and cut thread. Continue until all places have been tied off. The extra thread left over may be used for putting roll on successive mattresses made.

Fix Schedule For Exemption Plan

JACKSON, Miss.—An operating schedule of average maintenance levies for the purpose of reimbursing 2000 taxing districts in 1938 under the Homestead Tax Exemption Act has been computed and released by the State Tav Commission.

Approved by the attorney general, the uniform computation fixes a standard by which homestead exemption payments may be made by the state to taxing districts for the 1938 period.

Will Bring Benefits

George Scutt, chief of the Exemption Division, said the schedule represents several week's work and will enable a number of taxing districts with low levies to increase to the average figure and receive benefits, if desired.

He pointed out that any excess levy, above the average fixed by the commission, would be assessed against exempt homes in the same manner as bonds and interest, unless already in effect during 1937.

The schedule pertains to reimbursements provided for in the Exemption Act of 1938, with particular reference to taxing units which, (a) for a particular purpose, "made no 'maintenance' levy last fiscal year, or (b) made a levy less than the average mill rate down, and (c) to a taxing unit within 12 months preceding passage of the act, or is thereafter created".

On the general county maintenance levy, the schedule follows:

Assessed valuation to $3,000,000, maximum lawful rate is 10 mills average rate 9.5 mills; $3,000,000 to $8,000,000, mixiumum lawful rate eight mills, average rate 7.6 mills; $8,000,000 to $10,000,000, maximum lawful rate seven mills, average rate 6.8 mills; $10,000,000 to $22,000,000, mixiumum lawful rate, six mills, average rate 5.9 mills; $22,000,000 and over, maximum lawful rate five mills, acerage 4.9 mills.

In counties where the 1937 millage is below the average fixed by the Tax Commission, the rate may be increased, if necessary, and exemption will still be granted, not in excess of the average.

This same procedure applies to countywide and special school districts where they have been operating on a restricted millage, but wish to increase.

GINNERS' RECORDS USED AS BASIS FOR DETERMINING YIELDS

The records of cotton production being kept by ginners and the promptness with which ginners and their reports on production to the county committees in connection with the AAA program are important to producers in each county, according to T. M. Patterson, administrative officer in charge of the program.

The ginners' reports are used as a basis for determining the normal yield per acre of cotton for individual farms and will also provide information on cotton production for counties, including cross-county ginnings.

The normal yield established for a farm is a fundamental element in competing conservation payments, and cotton price adjustment payments and in fixing the cotton marketing quota for a farm, Patterson explained.

Under the AAA program for cotton, normal yields per acre are established on the basis of the production during the preceding 5 years, with adjustments for normal weather conditions. This means that ginners' records of production on individual farms will be an important factor in establishing the yields for the 1939 program. If this system of having the ginner report the amount of cotton ginned for each farm were to be continued for 5 years or longer, the years for which accuavailable would no longer be used in the computation and insteaad, better records would be available in the county office for figuring the normal yield to which each farm would be entitled.

Administrator Patterson pointed out that the record to be kept by the ginner, in connection with the cotton marketing quota regulations should assist him in compiling his report for the March canvass of the Bureau of Census. Under legislation passed and approved this year, the ginner is required to report to the Bureau of Census the county or parish in which each bale of cotton ginned by him was grown.

In view of the fact that the data is to be used in giving each farm the normal yield to which it is fairly entitled, the ginner is helping the producers in his area by submitting the reports promptly in the manner designated under the marketing quota regulations.

It was also pointed out that each cotton producer serves his own interest by making certain at the tims he gins his cotton that the ginner gets all the information necessary to make his report to the county office. If the producer gives his ginner incorrect information, with the result that the farm on which the cotton was pro credit for its production, the normal yield to be established for that far mwill be affected posibly to the disadvantage of the producer.

"The rporet required for ginners this year are far less burdensome than those required of ginners in 1934 and 1935 in the administration of the Bankhead Act." Patterson said. "It appears that the duty of making the reports will not be any heavier than that which citizens and business concerns have assumed for many years in assisting State and Federal agencies. The Department of Agriculture is furnishing the necessary forms and the reports will require very little if any, information in addition to which ginners customarily obtain for their own records."

26 MILLION DOLLARS NOW AVAILABLE FOR BUTTER PURCHASES

Mississippi dairy farmers stand to benefit by a 38-million pound increase in the amount of butter that the Federal Surplus Commodities Corporation has authorized to buy for relief distribution during the year ending June 30, 1939, according to E. H. White, state director of extension.

Because of largesupplies of dairy products on hand and because of heavy molk production removel of a larger quantity of butter than was earlitranticipated is necessary to help improve dairy products prices and farm prices of milk and butterfat during the 1938-39 season, F. R. Wilcox, director of the Division of Marketing Agreements of the Agricultural Adjustment Administration, said recently when the AAA announced expansion of the purchase authorization.

Consequently, Director White said, the Triple-A butter program has been revised, raising the tota' amount that may be bought from 52 to 90 million pounds. For this purpose a $10,000,000 increase in the authorized expenditure of Federal funds, bringing the total of $26,780,000 was approved.

Purchase of butter and other dairy products by the Federal Government for relief distribution is a part of Secretary Wallace's recently emphasized policy of buying farm surpluses to provide more adequate nourishment for low income families.

Civilization Marches On

Yellowstone National Park (UP)—Residents of Cooke, Mont., mniing village, are rejoicing in the Westward march of civilization. Heretofore it has required three days for the mail to arrive in the winter time by sled from Gardiner, Mont., only 56 miles away. This wnter they wil reiceive their mail every day by truck.

Greenwood Mayor's Abductors Get 18 Months In Prison

CLARKSDALE, Miss. — Pleading guilty in federal court to charges of abducting Mayor G. L. Ray, of Greenwood, William J. Bailey, Chester Sides and James E. Lyle, of Dallas, Texas, were given prison terms of 18 months each.

The young men were arrested a short time after the alleged abduction.

They were charged with kidnaping the mayor after he returned from a ball game and robbing him of $22 last July.

Bronchial Coughs Need Creomulsion

Just a common cough, a chest cold, or a bronchial irritation of today may lead to serious trouble tomorrow. They may be relieved now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medicinal combination designed to aid nature in soothing and healing infected mucous membranes by allaying irritation and inflammation and by aiding in loosening and expelling germ-laden phlegm.

● The Medical Profession has for generations recognized the beneficial effect of Beechwood Creosote in the treatment of coughs, chest colds, and bronchial irritations. A special process was worked out by a chemist, for blending Creosote with other ingredients so that now in Creomulsion you get a good dose of genuine Beechwood Creosote which is palatable and may be taken frequently by both adults and children. ●

Creomulsion is one preparation that goes to the very seat of the trouble to help loosen and expel germ-laden phlegm. When coughs, chest colds and bronchial troubles due to common colds hang on, get a bottle of Creomulsion from your druggist, use it as directed and if you are not satisfied with the relief obtained, the druggist is authorized to refund your money. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

U. S. To Continue Preparedness

By Lyle C. Wilson
(By United Press)

WASHINGTON Pres. Roosevelt is pledged today to continue our $1,000,000,000 a year preparedness re-armament program after a plea for peace which seemed to convey a hands-off-the-western hemisphere warning to non-Democratic powers.

He said last night that the United States would use "every endeavor in our power" to enable this hemisphere to work out its own salvation.

The President called no names But he denounced as fatal to peace, National policies based on a race for armaments, on fear, sheer force, threat of war or persecution. He spoke in a radio address to the New York Herald Tribune forum on current problems.

Shortly before his address, the state department circulated for release today copies of plain spoken note to Japan charging repeated violations of American rights in occupied portions of China. The note sought prompt acknowledgement and speedy, effective Japanese action to protect American Nationalists' rights and American trade.

FRANK JONES, JR., INITATED IN ENGINEERING FRATERNITY

The local shapter of Tau Beta Pi, national honorary engineering fraternity, has offered bids to twelve men, as announced by E. G. Laughlin, president. Informal initiation will be held in the club room in the engineering building at seven P. M. Wednesday night, October 19th, with the formal initiation scheduled within the next two weeks.

Of the twelve men elected to membership, three are from the junior class, nine are seniors and are listed as follows: juniors, W. F. LaHatte, E. E. Bolls, and S. L. Ragland; seniors, T. F. Jones, D. P. Anderson, C. E. Cunningham, J. P. Duke, G. B. Harold, B. H. Brown, W. H. Brown, J. D. Shell, and B. B. Nye

Tau Beta Pi is among the six national honorary fraternitites recognized by the National Association of Honorary Societies. To be eligible for consideration for membership, seniors must be in the upper one fourth of their class and juniors in the upper eighth f their class. Honesty, integrity, initiative and natural engineering ability are given high rank in considering a new man for pledgeship, according to members of the local chapter.

Girl Reserve Week is this week and will continue through Sunday night. Mrs. P. T. LaGrone has been appointed quota chairman. Appeals will be made to the civic clubs. Last year was the first year the quota has been raised and the Girl Reserve appreciate the generiosity of the Grenada people.

OLE MISS ENROLLMENT SETS A NEW RECORD

(By Harold Burson)

UNIVERSITY, Miss.—The 1938 enrollment at the University of Mississippi has broken all previous records for the first semester matriculation according to a survey by Registrar T. A. Bickerstaff.

The present mark of 1313 students surpasses the previous high for the first semester set in 1936 by 12. Of the total, 961 are male students and 351 are co-eds.

Increases were noaed in nearly every school on the campus with the exception of the College of Liberal Arts, which suffered a sharp decline since last year. The present figure for the B. A. School is 605, a drop of 33 from last fall's number.

The greatest increase in matriculation came in the school of commerce and business administration, where 322 undergraduates are studying. There were 289 registered in 1937-38.

Other schools showing a gain in the number of students were the graduate school, school of law, school of pharmacy, school of medicine and school of education. The sc hoolof engineering held its own.

This year's freshman class is among the biggest ever here, with 326 first year students enrolled of whom 112 are co-eds. Also among the new students are 112 transfers.

Wage-Hour Law In Effect Now

WASHINGTON— First Federal regulation of wages and hours generally in interstate industry became effective for 11,000,000 workers at 12:01 A. M. today under the New Deal's Fair Labor Standards Act.

There have been some indications that the wage-hour division will be chiefly concerned with so-called "sweated labor" and that division inspectors may not seek opportunities to enforce time and one-half overtime benefits for workers in upper wage brackets.

Congress skipped agriculture in imposing wage and hour provisions, Farm labor is the larest exempted class.

Other major wholly exempted groups include, seamen, the Fishing industry, and airline, streetcar, motorbus and interurban railway employes; executives, administrators, professional persons and persons employed in local retailing or as outside salesmen; persons employed in retail or service establishments largely engaged in interstate commerce; and persons employed in the area of production to handle or prepare farm products.

COTTON ED SMITH PLANS FARM BILL

"To Blast AAA to Kingdom Come"

Senator "Cotton Ed" Smith of South Carolina, who piloted the AAA through the Senate last winter, is now dead set against the Act as impracticable and is planning to introduce a new agricultural bill of his own during the coming session of Congress, he reveals in a statement to the Country Home Magazine.

"Cotton Ed," survivor of the recent "purge" is framing a farm bill which he predicts "will blast AAA to kingdom come" when he throws it like a bomb into the next meeting of the Senate Agricultural Committee. If it becomes law he believes it will solve all the country's major farm problems and subsidies, and for the first time in history place American agriculture on a basis of equality with industry. The proposed bill is described by the magazine a national farm publication as follows:

"In its simplest definition this bill, based upon the success of the United States seed loan laws, would set up a system of state banks for farmers similar to the Federal Reserve Bank system. Coordinated under one federal agency, these banks would grant farmers two to three year loans, would take leans on their crops and become a marketing agency for this produce, disposing of it as market conditions warranted.

"This system, SenatorSmith explained, would do away with land banks and intermediate credit banks. It would also provide for soil conservation, because the farmer who wanted a loan would have to prove that he was taking proper care of his land and farming by the most approved methods. It would also take care of surpluses because each bank, governed by farmers themselves would keep its creditors informed of national and international agricultural demands and advise them on the moot profitablt crops to raise."

The magazine quotes Senator Smith as follows, in support of his plan; "It may be a large order but I am sick and tired of farm laws framed by hysterical and wild-eyed dreamers. We have enough butterfly rule. The AAA won't work. It won't because it tempts to mold formers to the law instead of law to the farmers. I piloted the AAA of 1938 through the senate. I voted for it. But I warned those who framed it that I didn't think it would work. I merely hoped for the best. Now I know it won't work.

"I was reared on the farm. I have been a farmer all my life. I shall create my bill out of experience of farmers and not outof the theories of men who would starve to death if they were tossed on their heads in the cotton potch.

SUNSHINE COSTS GROCER

FREDERICTON, N. B.—Charles costly. As he stood in the doorway of his grocery store enjoying way of his gorcery store enjoying the morning sunshine thieves walked by him unnoticed lifted the cash drawer and walked out past

Provisions Of New Law

WASHINGTON—Major provisions of the new wage-hour law effective today:

Twenty-five cents an hour minimum wage.

Forty-four hour maximum standard work week in any seven consecutive days.

Time and one-half in cash for overtime.

Prohibition of all child labor under 14 years of age.

Restricted employment of children between 14 and 16.

Restricted employment of children between 16 and 18 in non-hazardous industries.

"Double indemnity" for workers who successfully sue because of over-work or underpayment.

$10,000 fine, six months imprisonment, or both, for punishment of employers violating the law.

Fifty-six hour maximum work week in seasonal industries, with a maximum work day of 12 hours.

Must Keep a Complete Record

WASHINGTON — Under the Fair Labor Standards Act, which became effective today, an employer must keep the following records:

1. employee's full name, address, date of birth, if under 19 years of age, hours worked each day and each week, basis of pay, and the regular rate.
2. The wages paid for each work week at the regular rate of pay.
3. Additional wages for each week attributable to the payment of overtime in excess of the regular rate.
4. Additions to cash wages at cost or reductions from stipulated wages in the amount deducted at the cost of the item for which de-

Cover Crop Meetings 5,000 Farmers Attend

STATE COLLEGE, Miss.—More than 5,000 farmers attended a series of winter cover crop meetings held recently in 22 counties of the state, according to L. I. Jones, extension agronomist.

Educational sound pictures on soil building were shown and discussions held on benefits derived from planting winter legumes.

Curtailment of cotton acreage and the offer of payments to farmers for carrying out soil building practices under AAA program are resulting in increased acreage planted in soil building and soil conserving crops, Jones said.

Counties in which meetings were held included: Forrest, Perry, Smith, Choctaw, Grenada, DeSoto, Benton, Tippah, Union, Calhoun, Lauderdale, Scott, Webster, Monroe, Rankin, Leake, Jefferson, Franklin, Covington, Stone, Harrison and George.

Mississippi farmers can earn $3,648,000 in soil building payments this year if they meet their full soil-building requirements under the AAA program. Practices that they can still carry out and earn payments include planting winter cover crops, terracing, improving pastures and applying limestone, superphosphate or basic slag to pastures and winter legumes.

Supt. Vandiver Expresses Thanks

We wish to express our appreciation to the many very fine Parent Teacher Associations for the wonderful work they are doing in connection with the state school program. We are especially indebted to them for their interest and assistance in the successful legislative program for the schools, as their efforts have meant a great deal toward building up public sentiment for education.

A good Parent Teacher Association can mean much toward putting over a good school program in every community of the state. We wish to emphasize the assistance they can be to the teachers of the schools and encourage the one hundred per cent cooperation with this great organization.

This is the season of the year the Parent Teacher Association is making their membership drive and we should shew our appreciation by aiding in every wa possible in obtaining large membership for each organization.

Parents and teachers are interested in the best schools possible for the children and the efforts of each can best be realized by working together in nuified effort in the interest of the children.

FQSSIL OF POD SEEMS LINKED WITH COAL AGE

St. Louis (UP)—A fossilized pod peoe necting link etween the fern like plants of the coal age and the present day flowering plants, has een discovered by Henry Andrews, botany instructor at Washington University, in oil shales near Edinburgh Scotland.

The fossil, one of about 2,000 found by Andrews while doing recearch work last summer for the Belgium-American Educational Foundation, is about 400,000,000 years old, according to Andrews. The botany collection has been added to the collection at the university.

The fossilized seed pod is tulip shaped, black in color and about 2¼ inches long. A species of coal age plant life which
